

As part of our ongoing and developing PSHE program we are working with Raise (Raising Awareness in Sex Education) to provide age-appropriate information advice and guidance to our students around Sex Education.

Information around sex and relationships is ever changing and with even more ways for children and young people to access information, we as professionals need to ensure pupils are receiving the correct information from a reliable source. It is paramount that pupils receive up to date and factual information relating to sex education, sexual health and relationships.

As an Author, Teacher & Trainer of Sex & Relationships Education Rebecca Jennings has deigned the RAISE (Raising Awareness in Sex Education) programme to ensure children and young people have access to the correct information which is appropriate to their age and level of understanding.

**RAISE**  
Raising Awareness in Sex Education
