Pearson Functional Skills Maths Entry 3 Level 1, 2 Pearson Functional Skills English Entry 3, Level 1 & Level 2	
<b>MATHS AND ENGLISH</b>	
Pearson Functional Skills Maths Entry 3 Level 1, 2	Pearson Edexcel GCSE in English Language
Pearson Functional Skills English Entry 3, Level 1 & Level 2	Pearson GCSE Mathematics (1MA1) Foundation Tier
<b>MATHS AND ENGLISH</b>	
<p>Connecting these subjects to the real world enables learners to grasp the significance of acquiring these skills by demonstrating the direct relevance of their studies to their everyday lives, future professions, and problem-solving scenarios. In both subjects, contextualised learning leverages real-world situations to provide tangible examples related to English and mathematics, ensuring that the content holds genuine meaning.</p> <p>Based on their initial assessment through BKSBS and their previous achievements, learners will be appropriately assigned to either functional skills or GCSE levels. Additionally, an evaluation conducted by subject-specific tutors, in conjunction with BKSBS results, may offer certain learners the opportunity to take a separate assessment. This assessment allows them to choose access to GCSE rather than functional skills.</p>	
<b>PSHE/CAREERS – Personal and professional development sessions</b>	
<p>At Bridge Training, we understand that education encompasses more than just academic subjects; it extends to the holistic development of individuals. Research indicates that learners with improved health and well-being tend to achieve greater academic success, leading to overall success. Therefore, our curriculum is thoughtfully complemented by a comprehensive Personal, Social, Health, and Economic Education (PSHE) program. This program includes essential components such as careers advice, employability skills, and enrichment activities. These elements are seamlessly integrated into the academic framework to ensure that our learners are not only academically proficient but also equipped with the life skills and knowledge necessary for contemporary life and work in the modern United Kingdom.</p> <p>To ensure that careers education is seamlessly woven into the curriculum, BTL offers learners opportunities to explore a wide array of career paths, gain insights into diverse industries, and receive impartial guidance regarding potential career choices. Career-related content is integrated into various subjects; for instance, during math's classes, learners can examine real-world professions that require mathematical skills. In English classes, learners can delve into careers related to writing, journalism, or communication, aiding their comprehension of the practical application of their learning. Students can engage in experiences of work, with hands-on experiences seamlessly incorporated into the curriculum, enabling them to gain valuable insights into different careers and develop relevant skills. BTL also extends a warm welcome to professionals from various industries to address students or organise visits to local businesses and organisations. This exposure broadens students' understanding of diverse careers and the nature of</p>

various jobs. These topics can be explored on a personal level in the weekly sessions dedicated to Personal and Professional Development. Here, progress is discussed, goals are established, initial careers advice and guidance are provided, and PSHE topics are explored in greater depth within a safe and supportive environment.					
<b>SEND</b>					
We are committed to providing high quality assistance and resources to students with Special Educational Needs and Disabilities (SEND). We firmly believe in the uniqueness of every individual, and our approach revolves around the creation of personalised student-centred plans that are adaptable and flexible to cater to each learner's specific requirements. Our primary aim is to ensure that every learner, including those with SEND, is afforded equitable opportunities for success. Our overarching objectives revolve around guiding and assisting all students in their progression towards their future endeavours. To accomplish this, we design individualized pathways that enable learners to advance and attain qualifications that expand their potential choices. Our array of strategies, interventions, a flexible curriculum, enrichment opportunities, employability assistance, and life skills support, all work cohesively to make this possible.					
YR	INTENTION	IMPLEMENTATION	IMPACT	FLEXIBILITY	EXPECTED PROGRESSION ROUTE
1	To provide support and opportunities to students aged 14-16 years who may have faced barriers to their education due to SEND, disrupted education, lower attainment levels or other challenges. To reengage young people with learning by nurturing their personal development, equipping them for the future, and	Complete an initial assessment to ensure learners are placed on the right level of course: <ul style="list-style-type: none"> <li>- BKSBA IA/DA</li> <li>- Evaluation of prior achievement</li> <li>- Subject specific assessment</li> <li>- Tutor observation</li> </ul> Provide an extended assessment period of 6 weeks where learners can achieve an initial qualification. Learners will be registered for an Entry 3 foundation	Learners will develop personal learning on the right programme of study that is reflective of their individual needs and abilities. Learners will be able to achieve a maths and English qualification at foundation level. Learners will be better prepared for the next level of study through the acquisition of foundation skills and underpinning knowledge. Continuous achievement Increased self-esteem and confidence. Broader landscape regarding next steps.	Flexible enrolment. After the first 6 weeks, depending on individual progress, course weighting can be altered accordingly. Bespoke timetables (reduced hours) Most learners will move onto their main aim; however, some learners may require either a longer period or more scaffolding methods employed	Level 1 in the same subject area at BTL or another provider.

	<p>promoting their overall well-being to set them on an appropriate pathway for their level of learning and next steps.</p>	<p>level vocational qualification in conjunction with maths and English supported with Personal Professional Development.</p>		<p>for them to attain the same level of competence. As a result of teacher/student/parent/carer discussions, main aim may be reduced to an award and increased to a certificate in increments. This allowing the learner to still achieve at their own pace. Through careful consideration, some learners can increase to the next level of study.</p>	
2	<p>To deliver a challenging Level 1 programme of study that supports the next level of development and nurtures emerging career aspirations by encouraging high expectations.</p>	<p>New and returning learners will complete an initial assessment to ensure learners are placed on the right level of course: BKSB IA/DA - Provide opportunity for learners to access the GCSE programme.</p>	<p>Reassurance the learners are on the right level of course. Identification of additional learning need in comparison to previous year. Previous support plans are effectively evaluated. Learners will develop next level skills in their chosen vocational area.</p>	<p>Flexible enrolment. Course credit value can be adjusted if there are barriers to achieving. Extended completion dates. 16-19 tuition fund. Bespoke timetables.</p>	<p>Level 2 in same subject area or other (if entry criteria is met) at BTL or another provider. Post 16 – Apprenticeship</p>
